

Separation of Newfoundland from Canada

Confederation with Canada has been a frustrating experience for Newfoundland. Management of the fishery is just one sore spot. Canada is a country with a strong center run by the Laurentian Elite. Newfoundland is just a slave of this Elite. It needs to separate from Canada. A new political party has been established in Newfoundland to make this a reality. Federally, the party will be known as the Newfoundland Exit Party [aka the NEXIT Party]. Locally it will be known as the Newfoundland Republican Association Party [aka the NRA Party].
